**In California, a good public education is no longer free.**

**Government sources, on which schools primarily rely, mainly fund core academic programs.**

**Arts, library services, foreign language, music, drama and other programs that enrich our students' academic experience are not adequately funded without private support.**

**Without *YOUR* support, South Pasadena's schools simply cannot deliver the level of education our community expects and our children deserve.**

**For over 25 years,  
SPEF has helped bridge the financial gap  
between what our five schools have and what they need.**
